Health and Safety Plan for RFP Industrial Area Integrated OU RFI/RI Field Work

Ned Hutchins, Acting Associate General Manager  
Environmental Restoration Management  
EG&G Rocky Flats, Inc.

Please find attached DOE/RFO comments on the June 1993 document, entitled "Health and Safety Plan (Accident Prevention Safety Program Plan) Rocky Flats Plant Integrated Operable Units RFI/RI Investigations". We request that these comments be reviewed and that the Health and Safety Plan be revised in accordance with the attached comments. In addition, we request that written responses to these comments along with the revised Health and Safety Plan be submitted to DOE/RFO by October 1, 1993. Any field work initiated prior to the revision of the Health and Safety Plan should be in conformance with the attached comments.

You should be aware that the DOE/RFO Environmental Restoration and Safety and Health Divisions do not have copies of the RFP Site Health and Safety Plan Workbook, dated October 26, 1990, which is intended to fulfill the IAG Health and Safety Plan requirements located in Attachment II, Section III. This is in spite of the fact that EG&G transmitted several copies of the document to DOE/RFO in the Fall of 1990. We request that four copies of the current RFP Site Health and Safety Plan Workbook be submitted to DOE/RFO by September 10, 1993.

It is our understanding that the RFP Site Health and Safety Plan Workbook is currently undergoing revision. Once this document is revised, we request that four copies be provided to DOE/RFO and that two copies each be provided for EPA and CDH review as this is a secondary document under the IAG. In addition, we request that EG&G verify that EPA and CDH comments on this document, dated December 11 and 14, 1990, respectively, have been responded to in writing and have been incorporated into the Workbook. The result of this verification should be included in the above-listed submittal requested by October 1, 1993.

Questions or concerns regarding this memorandum and attachments should be directed to Bruce Thatcher of my staff at extension 3532.
